INSTRUCTIONS FOR MAILING

We need will need serum to do the testing. Please draw a red or gold-top type tube. Spin it down and send at least 2 ml of serum with approved biohazard packaging. During the warm summer months, it is advisable to send the serum by an overnight courier. During the winter, regular mail is okay if it arrives within five days maximum.

Turnaround time for the four tests is about 2 weeks.

PLEASE SEND SERUM TO:
