

### **What to Expect During Your Outpatient Ultrasound Visit**

**Our goal is to provide you with exceptional care and service.** If at any point during your visit you have questions or concerns, please let us know.

1. After your registration is complete and when it is time for your exam, a staff member will come out and call your number and you will be escorted to the exam room.
2. Please note that our waiting rooms serve multiple Radiology departments, therefore patients for other exams may be called before you. Our team will keep you updated about wait times.
3. In the exam room, you will be instructed on what articles of clothing will need to be removed for your test (if applicable), and you will be given a gown to change into.
4. Once the Sonographer obtains and reviews your paperwork, they will come to the exam room to start your ultrasound.
5. Once the ultrasound is complete, the Radiologist will review the images and send the results to your physician typically within 48 hours.

***Thank you for choosing Northwestern Memorial Hospital for your Imaging needs.***
