Rehabilitation Services
Patient-Focused Therapy Programs

Rehabilitation services combine the experienced staff and resources at Northwestern Medicine Central DuPage Hospital, Northwestern Medicine Delnor Hospital, Northwestern Medicine Kishwaukee Hospital, Northwestern Medicine Valley West Hospital, Marianjoy Rehabilitation Hospital and several other health system locations. We’re dedicated to meeting your needs with a full range of therapies for all ages—from newborn to geriatrics. You’ll receive advanced, collaborative care from licensed therapists in a one-on-one setting at convenient locations throughout the western suburbs.

Rehabilitation services include:
- Physical therapy
- Pediatric therapy
- Occupational therapy
- Cardiac rehabilitation
- Speech therapy
- Pulmonary rehabilitation
- Developmental disorders
- Orthopaedics/gait disorders
- Cardiovascular disorders
- Congestive heart failure
- Heart attack
- Open heart surgery
- Respiratory disorders
- Asthma
- Chronic bronchitis
- COPD
- Emphysema
- Lung cancer
- Sarcoidosis

To help deliver an excellent experience and help you reach your full potential, we bring you patient-focused therapy programs tailored to meet your specific needs. Your team works with you and your referring physician to address any concerns and expectations related to the treatment of an injury or illness.

Notes:

*Patients referred for outpatient treatment of brain injuries or spinal cord injuries will be seen at Northwestern Medicine Marianjoy Rehabilitation Hospital locations in Wheaton and Oakbrook Terrace and at the Northwestern Medicine Rehabilitation Services location in Aurora.
Northwestern Medicine Rehabilitation Locations

To meet the needs of our patients, we offer convenient appointment times from early mornings to evenings and Saturday hours at select locations. For more information visit nm.org/rehab.
