

NM Kishwaukee and NM Valley West Hospitals Shared Decision Making Model

Nurse Executive Council

NEC is the governing council that ensures dissemination of shared decision making throughout NM Kishwaukee and NM Valley West Hospitals. It ensures alignment of shared decision-making activities to the Nursing Strategic Roadmap and Professional Practice Model, Relationship Based Care.

House-wide Councils

Nursing Professional Practice Council

The purpose of this council is to foster a nursing practice environment that promotes safety and a sense of professional ownership and responsibility for patient care and nurse sensitive patient outcome metrics

Professional Development Council

The purpose of this council is to encourage nurses to actively engage in lifelong learning that fosters career development and role competence aligned to our Patient's First mission.

Magnet Council

The purpose of this council is to create a Magnet Culture by embedding an expectation of Nursing Excellence throughout the organization.

Staff Engagement Council

The purpose of this council is to foster a culture of recognition that facilitates the enthusiasm and motivation of nurses and interprofessional team members to contribute to strategic priorities.

Integrated West Region (WR) Research Council

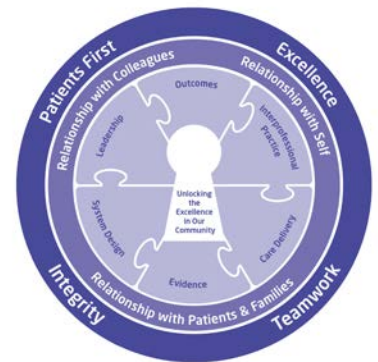

The purpose of this council is to promote a culture of innovation and support new research activity in direct alignment with the nursing strategic road maps at NM CDH, NM Delnor, NM Kishwaukee and NM Valley West hospitals.

Nursing Process Peer Review

Members engage in a peer review process to identify exemplary nursing practice and opportunities for process improvement.

Unit Based Councils

UBCs promote nursing excellence and high-quality patient care through implementation of evidence based practice and process improvement projects.
