

Behavioral Health at Central DuPage Hospital

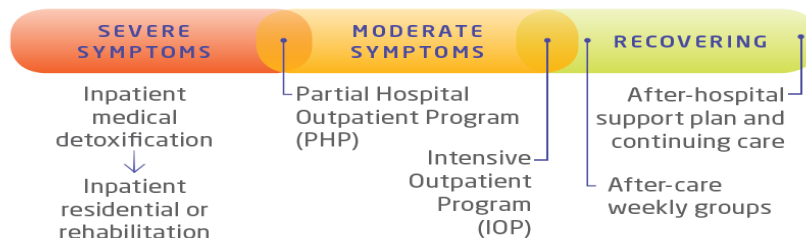

Expansion of Substance Abuse/Addiction Services

The national increase in opioid use is worsening the toll that substance abuse takes on individuals and families struggling with Substance Use Disorders. To meet this need, Behavioral Health (BH) at Central DuPage Hospital is now offering additional services to increase access to quality care and support long-term recovery.

- **Expansion: Inpatient Detox and Residential programs (adults)**
- **Addiction Medicine Physicians** serving **Outpatient** as well as Inpatient Addiction Services patients
- **Psychiatry consultation** for appropriate patients with co-occurring disorders
- **Medical Professionals teaching Patient Education groups:**
 - Physician-led: Suboxone® and Naltrexone
 - Nurse-led: Opioid-Overdose Prevention
 - Community Health: Smoking Cessation and Resources

Addiction Services

Our Continuum of Care

About Northwestern Medicine Behavioral Health:

Northwestern Medicine provides a full range of behavioral health services for teens and adults challenged with psychiatric or mental health problems and adults with substance abuse/addiction disorders. Our specialists provide research-based, best-practice inpatient and outpatient care to meet the patient's specific treatment needs.

Phone assistance is available 24 hours a day, seven days a week. Assessments are by appointment only.
