

# Diabetes Prevention Program

## Take proactive steps toward better health.

Are you at risk for Type 2 diabetes? The Diabetes Prevention Program is a structured six-month lifestyle intervention designed to help you take proactive steps toward better health. Through a combination of education, exercise and ongoing support, you'll gain the tools to reduce your risk and build lasting habits that support long-term wellness.

What's included:

- › Guided educational sessions led by health and wellness professionals
- › A1C testing and regular health assessments
- › Personalized exercise programming
- › Full access to the Fitness Center for the duration of the program

Eligibility:

- › Must be at least 18 years old
- › Not pregnant
- › Have a body mass index of 25 or higher
- › Not diagnosed with diabetes

Space is limited. Reach out to your preferred location today to get more information. **Take the first step toward a healthier future.**
