

Rehabilitation Services

Patient-Focused Therapy Programs

Rehabilitation services combine the experienced staff and resources at Northwestern Medicine Central DuPage Hospital, Northwestern Medicine Delnor Hospital and several other health system locations. We're dedicated to meeting you and your family's needs with a full range of therapies for all ages—from newborn to geriatrics. You'll receive advanced, collaborative care from licensed therapists in a one-on-one setting at convenient locations throughout the western suburbs.

Rehabilitation services include:

Physical Therapy	Pediatric Therapy*
Occupational Therapy	Cardiac Rehabilitation
Speech Therapy	Pulmonary Rehabilitation

To help deliver an excellent experience and help you reach your full potential, we bring you patient-focused therapy programs tailored to meet your specific needs. Your team works with you and your referring physician to address any concerns and expectations related to the treatment of an injury or illness.

Available Services:

Physical and Occupational Therapy

Aquatic therapy	Sports injuries
Breast cancer	Stroke
Hand injuries	Temporomandibular Joint Disorders (TMD, TMJ)
Lymphedema	Vestibular/balance/concussion therapy
