The purpose of this activity is to enhance the knowledge base of renal disease professionals as it pertains to kidney transplantation and their patient population and to complete the following objectives:

- *Discuss considerations for patients with liver disease and kidney failure*
- *Identify how weight impacts patient candidacy for transplantation*
- *Define the term Tolerance*
- *Describe living kidney donation process and paired kidney donation*
- *Describe the changes made to the kidney allocation process and its impact on patient wait times*

This conference is intended for nurses, social workers, dietitians and technicians who work in dialysis units,

Organ Transplant Center
676 N. Saint Clair Street
Suite 1900
Chicago, IL 60611
