

Practicum Placement Process and Requirements

Summer Session

Practicum goals and objectives

Gain insight and exposure to the child life profession through observation of clinical interventions

Observe interactions with patients on a one-to-one basis and in group situations

Gain an initial acquaintance with the needs of hospitalized children and their families

Develop assessment skills and therapeutic play skills

Complete readings and assignments that encourage the application of child development theories

Develop professional attitudes, growth, maturity and judgment by functioning in a professional environment

Practicum schedule

The practicum student is required to complete a 10-week, 120-hour practicum from the beginning of June until the middle of August. Part-time hours will vary each week, with occasional evening and weekend shifts. The student will gain exposure to various inpatient and outpatient pediatric areas with weekly and bi-weekly rotations.

Practicum responsibilities (other responsibilities may also be required)

Shadow certified child life specialists

Observe medical play and procedural preparation/support

Create and implement therapeutic activities

Complete readings, assignments and mini-project

Promote developmental play with supervision

Student requirements

Have at least a sophomore status or have completed/ be in the second year of college or university in a related field with applicable coursework (non-affiliated students will also be considered)

Have a minimum 3.0 GPA

Have at least 50 hours of experience working with healthy children or adolescents (hospital experience beneficial)

Be committed to learning and advancing knowledge of child life in a hospital setting
