# Pediatric Hematology and Oncology

at Ann & Robert H. Lurie Children's Hospital of Chicago at Northwestern Medicine Central DuPage Hospital

# World-class care with compassion

Our Pediatric Hematology and Oncology teams work tirelessly to help children and adolescents return to a life focused on the future.

---

## Treatment from Lurie Children's at Central DuPage Hospital gives patients access to:

---

Lurie Children's specialists, board-certified in Pediatrics and Pediatric Hematology and Oncology

More than 150 additional pediatric specialists\*

The latest advances in diagnostics and treatment strategies, and a comprehensive range of nationally recognized specialty care, including the Northwestern Medicine Chicago Proton Center

Leading-edge rehabilitation services at Marianjoy Rehabilitation Hospital, part of Northwestern Medicine

Clinical trials and research conducted through Northwestern Memorial Hospital and the Children's Oncology Group

---

---

## Comprehensive and advanced care while minimizing the treatment impacts through the following treatment modalities:

---

### Chemotherapy/Biotherapy

Radiation therapy, including conventional and proton beam radiation (the only facility in Illinois offering proton therapy)

Pediatric surgery, including minimally invasive surgery

Transfusions of all blood products

Coagulation factor replacement therapy

---

## Beyond treatment

Our specialists are trained to connect with children and adolescents to set the stage for effective examinations, diagnosis and treatments.

Northwestern Medicine also equips children, adolescents and their families with ways to cope with the emotional, social and developmental challenges that come with pediatric cancer and blood diseases.

Pediatric Oncology Survivorship Program: To help patients and families navigate life after cancer, including both the physical and emotional challenges they may face.

---

## Support services include:

---

Child life specialists who help educate and reassure children, adolescents and families before, during and after treatment

Art therapy, music therapy and pet therapy

Pediatric Hematology/Oncology Nurse Practitioners and Nurse Navigators collaborate with the multidisciplinary team in managing patients and families from the time of diagnosis, throughout the continuum of care, inpatient, outpatient, proton radiation and survivorship.

Pediatric social workers provide emotional support, and help families and patients with care coordination services, connections to resources and assistance in navigating the medical healthcare system.

Chaplains tend to the spiritual wellbeing of patients and their families.

---

## Focus on the future

The Pediatric Hematology and Oncology teams at Lurie Children's at Central DuPage Hospital are driven by a shared goal: to give children and adolescents the future they deserve.
