Refill Requests

Prescription refills are easy with NMSP and our therapy management program. We don't want you to miss a dose of your medication. Before each refill, a patient care advocate will contact you to see if you have any medication remaining. We will do a quick assessment and note any changes or concerns that are communicated. Please tell us if you have any changes in medication or issues with your insurance.

If you need a medication refill before a refill is due, please contact NMSP for help **AT LEAST ONE WEEK** before you need it.

Adverse Drug Reactions

If you think you are having a reaction or side effect from a medication, please contact a pharmacist at NMSP and your provider as soon as possible. In case of a medical emergency, **PLEASE CALL 911** or your local emergency department to get help quickly.

If you want to know more about our services or would like to speak to NMSP staff, call us at 312.926.9365, or visit our website at specialtypharmacy.nm.org.

*Thank you for choosing Northwestern Medicine Specialty Pharmacy
for all your medication needs!*
