

Comprehensive Care for the Whole Family

Northwestern McGaw Family Medicine Residency at Lake Forest Hospital

Northwestern Medicine family medicine physicians are primary care physicians who provide comprehensive health care for people of all ages.

At Northwestern Medicine, we are committed to better medicine. That includes training the next generation of physicians to deliver better care to our patients. Through Northwestern University, we are privileged to host the Northwestern McGaw Family Medicine Residency Program at Northwestern Medicine Lake Forest Hospital.

Resident physicians collaborate with Northwestern University Feinberg School of Medicine faculty members. They are fully licensed, board-certified physicians, often referred to as attending physicians.

Why choose family medicine

Choosing a primary care physician is important for you and your family's health and wellness. We provide comprehensive care for patients of all ages, such as preventive medicine, treatment for minor injuries and illnesses, and chronic disease management. We can connect you with specialists if needed.

To schedule an appointment, please call **847.535.7157** (TTY: 711).
