MAY 11 2018

Dr. Kadakia made me feel very cared about and heard. He knows his craft so well! He made some great suggestions to improve my walking with a tie up brace that no one else had recommended to me. I walked out of his office walking better with much less pain than I'd had since my injury in 2016. He also suggested a CT scan to look at things more closely to determine if there was anything else he could do to help me. You are so fortunate to have me as a physician at Northwestern.
