**I had an excellent experience and and very pleasant interaction with Dr Babka. He had exactly the approach I was hoping find that put getting fit to return to the playing as the top priority. He laid out the treatment options in a clear manner, explained the various trade-offs, the allowed me to make the decision I felt most comfortable with. A friend had highly recommended him -- I plan to do the same.**

AUGUST 17 2019

**I have been to two separate ortho organizations before being recommended here by a friend. This is the first doctor that I felt took the time to understand the pain in my shin, understood the type of training runners do and asked what my goals were. He did all of this before sending me for the X-Ray. I felt like he was putting a care plan for me personally instead of lumping me in as just another patient. I've spent three years trying to find a doctor that I felt would try to help me reach my goals. If anyone I know is experiencing any pain from running or a stress fracture in the tibia like I had, I would say they have to see Dr Babka**

AUGUST 31 2019

**Dr. Babka was very friendly and approachable with any questions. he gave scenarios and recommendations for my situation in order for me to make an informed decision.**

**Dr. Babka is THE best. I have recommended him to my wife, son and several friends for their orthopedic issues.**

OCTOBER 19 2019

**Dr did a great job listening to my problems, asking questions and then providing multiple solutions to solve it. One of the few doctors who didn't lecture me and send me off with a worksheet. Highly recommend!**
