I was extremely hesitant about seeing this doctor because mine had left CDH NW. It was "pick a name" of avail staff from that office, so you just don't know how... When I saw a picture of her posted on-line, I thought she looked like a new graduate. I was glad I commented on it because she explained she had nine years experience.

***Dr. Rynn is an excellent physician that listens to my concerns and offers treatment(s) that she feels**

Dr. Rupp is an excellent physician that listens to my concerns and offers treatments, that she feels will help. She thoroughly explains all and asks for my willingness to try it. She ordered some labs & when she got the results, had her nurse call me with a change in medication.

Dr. Rupp is the greatest! My tests were all very good this time, which made her happy! But even when I "slip" she is still encouraging, helpful, and concerned; she never intimidates or makes one feel bad. She is so caring that I just WANT to do better each time! THAT is the influence of an extremely good doctor.
