JUNE 11 2018

Dr. Kiley is wonderful. She explained all of the immediate next steps for my pregnancy as well as provided a general timeline of things to consider down the road. She stopped multiple times for me to ask questions and was able to sense when I was hesitant about something. She prompted my husband and I multiple times to ask questions and answered everything in a way that we understood. This was my second visit with her and I have nothing but amazing things to say about her. She is very intelligent with amazing bedside manner and I trust her completely with my OB/GYN health needs.

Dr Kiley is such an incredible doctor and human. From my first appointment with her, she made me feel like she genuinely cared about me as a person, not just a patient. She took time to get to know me, and make recommendations that were good for me and my health. Not only is she kind and genuine, but she's an amazing doctor! She helped me find the right birth control option for me when I was going to be traveling the world for 15 months, and I look forward to her being my doctor through pregnancy as well. She's just the absolute best - I actually look forward to doctor appointments with her!
