MARCH 8 2019

Jill was very thorough with my body scan and took my concerns seriously. She didn't scold me for having spent too much time in the sun in my childhood -- just said she'd make note of it (I've had different experiences with that from other dermatologists). She was very clear in explaining each condition I had, how it was different from others and how it wasn't something to be concerned about. She asked if something was bothering me even though it wasn't posing any risk to me, and when I said it was a little bit of a nuisance, she froze it off right there in the appointment without me having to come back during a busy workday. It was all very efficient, which is much appreciated.
