SEPTEMBER 20 2018

Dr. Simon was exceptionally helpful; analyzed the likely causes of my inability to swallow properly while in pain. He was thorough, methodical and verbally shared his conclusions recommending the best meds and treatment to heal my throat.

OCTOBER 4 2018

OCTOBER 8 2018

Dr. Simon was very friendly and knowledgeable and listened to all of my concerns. He gave me a simple treatment plan and gave me a run down of what the next steps would be if it didn't work and gave me a timeline to check my progress against so I would know when/if we needed to progress I'm the treatment. He even said that I wouldn't need to come in for another appointment if we needed to take the next step, that we could take care of it over the phone to save time. I could tell he cared and didn't want to waste my time or money and I felt like he really understood what needed to be done and the best way to do it for my specific scenario.

OCTOBER 12 2018

OCTOBER 14 2018

answered all my concerns I never felt rushed I left feeling he really took all the time in the world . Dr Simon was not in a rush. I felt complete when I left.

NOVEMBER 18 2018

Dr. Simon explained the laryngoscopy procedure and warmed me about the discomfort I might experience. I got myself prepared for it and I hardly felt the tube going down my nose. He advanced the tube so gently and I hardly felt it. I am very happy impressed by his technique and taking his time to do the procedure with a lot less discomfort. Thank you so much !

NOVEMBER 30 2018

Dr. Simons made me feel at ease even though it is a tough situation. Dr. Simon answered through with an answer my daughter could understand and used hand gestures to assist. My daughter is not concerned about her procedure later this month because Dr. has got her!!
