JULY 29 2018

Dr. Schuele is really the best neurologist I have ever worked with. He is very caring, and very attentive to me during my visits. He explains everything very clearly and is very patient with my questions. He is very generous with his time. I am very confident of his ability to be my health care provider. No question I would recommend his department.

AUGUST 3 2018

dr. schuele always listens and gives your thoughts consideration.

AUGUST 20 2018

Dr. Schuele is one of the best doctors that I've ever had. He is easy to speak to and makes the visit feel less like a scary doctor visit, but more of a discussion of issues between friends. I moved away from Chicago, but still travel back for my appointments just because of the trust that I have in his care.

I have had appointments with several doctors and been at NW for a long time but doctor SCHUELE is

the best I've had.

SEPTEMBER 8 2019

Dr. Schuele is one of the best I have ever seen. He takes the time to understand what is happening and has solved my problems over and over again. I moved away from Chicago but still return back just for these appointments because I have trust in his abilities.

OCTOBER 6 2019

Dr. Schuele has been my doctor for the last 19 years. I thoroughly trust him as my doctor and even though I only see him once a year, he always remembers things about me, ask me questions about my personal life and takes a genuine interest. Wouldn't trade him for anything.

NOVEMBER 3 2019

Dr Schuele has a unique balance of clinical expertise and common sense. We actually travel more than 6 hours to see DrSchuele-totallyworth it
