SEPTEMBER 15 2019

**Dr. Stephen Gryzlo was my second opinion doctor. I was extremely pleased with my appointment. He was very compassionate, showed concern for my injury. He did a through explanation of my rotary cuff injury, showed me all the images of my MRI. He examined me to determine the extent of injury and explained my options of continuing my physical therapy verses surgery. Also explained post surgery details of the pain and hours PT hard work I would need to do in a positive way. I would highly recommend him to my family or friends.**

SEPTEMBER 15 2019

SEPTEMBER 29 2019

**Dr Gryzlo was friendly, knew my chart/MRI findings, and had gotten a full report from the resident and student. He showed me the MRI and discussed the findings and appropriate treatment (arthroscopy). because I will be out of the country for a month in mid November, he graciously got my surgery scheduled for next week, giving me an idea what my post op limitation s would be. I am a physician myself, and I felt he treated me like a colleague, and explained things at my level. There was plenty of opportunity for questions.**
