OCTOBER 14 2020

Did not see the doctor. Was stuck in a room for over 45 minutes with no explanation of what was going on. I walked out. My time is important as well and I deserve to be kept in the loop about my health care. If he has no respect for me or my time than I have no need for the office.

JULY 7 2020

I have been a long time patient of Doctor Chenelle and he has always been open, honest and truthful. At this stage of my life, my body has succumbed to the natural aging process. Doctor Chenelle has not nor will not give in to my mind set of the desire to be as active as I've always been during my life with sports and activities. He is realistic and makes me realize that my body can no longer support my desire for such sports. I am fortunate to have him as my neurosurgeon. I am confident he is well respected and recognized by his colleagues. If not, they are probably envious of the his skills and talent he has gained during his career.
