JANUARY 2 2022

**I was blessed and lucky at the same time to have Dr. Fishman as my surgeon twice in the last 10 years for two difficult successful brain tumors removal. Dr. Fishman spent enough time explaining to me exactly what was to come, the risks involved, and he answered all my questions with great patience and kindness. I put my life on his hands and I have no regrets, I am now back to a normal life. After the surgery I was in close contact with Dr. Fishmanâ€™s team who patiently guided, supported and answered absolutely all the questions I had throughout the recovery time. I had a great connection and experience with Dr. Fishman and his fantastic team. I just love all of them and I am deeply grateful and thankful for all the care I received. I would highly recommend Dr. Fishman!**

DECEMBER 27 2021

**My 1st appt. with Dr. Fishman. As the request to view my 2019 brain MRI caused me a little concern. Dr. Fishman seemed to address this right away & provided relief vs. the other thoughts / concerns I may have had.**

DECEMBER 27 2021

**Dr. Fishman is an Excellent doctor except he does not take any time to let me ask any questions. He is walking out the door with out taking any time to see if I have any questions! I have to say I have a question to ask you while he is leaving the room. He is very brief in his explanation what is going to happen. I wish he would show that he has a little more interest in the patients feelings.**

AUGUST 22 2021

**I wish hed talk more about the issue Im having. When I ask questions, its not because Im questioning his job, Im questioning my problem and just want it fixed!!! Im not questioning him not doing a good job, just want answers to my problem. I dont think my problem is getting fixed. I just hope its not because of my insurance and thats why its not getting fixed. Before my last surgery; he couldnt see I had a bigger infection then he thought. And I asked how he knew the infection was gone, and he said he could see it. If that was the case then why couldnt he see it before surgery and it seemed to me like he got mad for me asking the question. I just wanna make sure Im not gonna die from this infection.**

JULY 19 2021

**Dr Anderson explain the procedure and risks**

JULY 18 2021

**Maybe Dr. Fishman was having a "bad day". It does look like many members of the staff in both Central DuPage and Delnor are having bad days since the hostile takeover by Northwestern. Too much talk about how great Northwestern (the Chicago location) is, such as being a top ten hospital in the U.S. and, too little work at managing and unifying an important hospital system in the Chicago region. You have a lot of good staff members at all the needed levels in your locations. Let them know their work is appreciated.**
