## Reviews From Patients

13 Reviews

---

OCTOBER 26 2019

**Dr. Anjali showed us the images from MRI and explained what she saw. She answered our families questions, and shared ideas about how we might proceed in the treatment of my wife's episode which was not a stroke but involved loss of speech temporarily.**

SEPTEMBER 19 2019

**\*Dr. Garg was friendly, understood my medical issue and listened to my concerns.**

SEPTEMBER 14 2019

**Dr. Garg is a very care and intelligent physician. I am very confident in her care and recommendations. Her nurse is also very caring.**

SEPTEMBER 11 2019

**Dr. Garg is GREAT! I feel the care provided is the best.**

SEPTEMBER 3 2019

**I am very pleased.**

AUGUST 20 2019

**I felt very important with her attention.**

JUNE 28 2019

**I never feel rushed & all of my questions are patiently answered**

APRIL 20 2019

**Despite me having lasting pain from an injury to my spinal cord, any neurologists I see tend to blow me off because my pain presents above the site of injury. Dr. Garg was one of the first physicians to listen to me and she did so intently. The questions she asked were thorough, as was the reflex exam she did. She even uncovered a few issues I was unaware of. Unlike previous doctors, she ordered a litany of tests and made sure to explain each one. For the first time in years, I feel confident in the care I will receive- and I cried with relief in the car because \*somebody listened to me.\* That's incredibly valuable. Hang onto Dr. Garg-she's amazing!**

DECEMBER 17 2018

**great doctor**

JULY 23 2018

**Outstanding care. As good as I've ever experienced**

JULY 17 2018

**Dr Garg was kind, a great listener, and explained things well.**

JULY 9 2018

**Dr. Garg was very thorough. I honestly expected a typical appointment where doctor asked 1-2 questions and then send me somewhere or give generic medical diagnosis. Experience was completely opposite. I appreciate the detail/attention given.**

JUNE 15 2018

**Dr. Garg is very easy to talk to and is very complete in her assessment and treatment.**
