Caring, sees the big picture (meaning the whole me and not just unrelated parts to deal with individually), thinks outside the box when sees potential for helping, kind but pulls no punches. What more could you ask for? Plus, her assistant, Ana, was great and handled followup questions on the portal about appointments so fast and thorough. Haven't seen that care and attention from an assistant in a long time.

OCTOBER 24 2021

She listened well and addressed my health concerns while including me in the conversation. I felt like it was a collaborative experience which is what I am looking for in a doctor/patient relationship. She gave me helpful advice which I always like and she was able to tell me what she wasn't qualified to do which was refreshing; I have no respect for doctors who guess when they don't know or blame the patient when they don't know. I've had a few of those.

AUGUST 21 2021
