MARCH 9 2022

Not likely. He does his job but I wouldn't say I felt much interest in my case and even less empathy. I felt I had more questions but no time to ask them. My last visit felt rushed and I was in a lot pain. He had a very programmed response to my concerns. He did his job but I felt I was a number and that's an awful feeling. I left feeling like I had high hopes for a treatment plan but I walked away feeling disappointed.

JANUARY 31 2022

I have seen Dr. Davis for many years and he is outstanding. He is consistently on time, treats his patients with respect (despite my silly questions) and never rushes me. When he administers shots for pain, he always takes special measures to ensure my pain is minimal by checking in during the procedure and making adjustments. I would highly recommend Dr. Davis for Orthopaedic care at NM-LFH. Thank you very much for your extraordinary care, Dr. Davis!

JANUARY 30 2022

I've seen Dr. Davis several times, and my last visit was the only time I have ever felt uncomfortable. Shots in the knees are never pleasant, but this time I really felt some pain with one and automatically said something. When he was done, he just said the way out is that way and left me in the room on the table with one pant leg up. I felt like he was disgusted with me.

Dr. Davis is a brilliant physician, kind and compassionate. He makes a concerted effort to get to know his patients on a personal level, which makes his patients feel, at ease. He truly cares about his patients--certainly a role model for other ortho physicians at LFH!!
