MARCH 31 2022

This was my first appointment. I chose Dr Ganger because of his expertise in cirrhosis and transplant surgery. I have confidence that as an expert, he will optimize my medical care to achieve the best possible outcome. Dr Ganger was well informed about my previous care, having read my past medical records. He advised a treatment plan that I have confidence in and that is clinically sound. He ordered meds and a procedure, advised me on the risks of COVID exposure. He was serious, focused, all business. I appreciated that.

I was late about 40 minutes from my appointment today and because I received the wrong directions.
