AUGUST 29 2021

Dr. Liebovitz is superb: an excellent communicator, a good listener, patient, and responsive.

AUGUST 24 2021

This was my first virtual Eetel-visit appointment. It took 3 tries to get my mobile phone settings. After that the appointment went smooth. Dr Liebovitz took care of my immediate requests to renew Rxs. He also reviewed my medical history to make suggestions for my ongoing preventive care. I was very comfortable with the virtual appointment and felt I was receiving the best if care. I would not hesitate to consult him again for my medical care. Thank you so much!

JULY 24 2021

Listened to all aspects of the situation and provided thoughtful recommendations.

JULY 19 2021

1. He took my concerns seriously and attended to each one, regardless of how minor they may have appeared. 2. He arranged for testing or imaging when necessary. 3. When there are alternative options to testing or treatment, he explained those as well. 4. I feel as though he is only prescribing medications I absolutely need and not giving me medications that only might be useful. (Personally, I'd rather not take so many meds.) 5. He's thorough and follows-up either in the appointment or in My Chart. 6. He provides comments about my testing results in My Chart soon after the results come in. 7. He has a good patient rapport. He's easy to talk to and makes me feel comfortable.
