This doctor is extraordinary. I had no prior history with Dr. Woodard yet he got me on his schedule 1 week after our initial visit and gave us his personal cell phone number to use if I had any questions. Who does that? That was crazy awesome. He also has this charming down-to-earth demeanor which is helpful before a major surgery. I could go on and on but I suspect that there are 100's of patients with similar stories.
