He takes the time to answer questions and talk to you during your appointments. He is also very kind and caring.

JANUARY 29 2022

Dr Tsarwhas advised me that with a 2B Resulting diagnosis, and excision of a lobe and it's tumor, there was a 1 in 3 chance the cancer might return. Meanwhile the result was thought to be curative. Surveillance was the protocol. I accepted this as a Bayesian situation. Surveillance imaged the return and treatment of this episode commenced. Twenty exposures of radiation resulted in disappearance of the imaged cancer and no further new growths. I tell all my friends this happy outcome and of the providers who managed it.

JANUARY 28 2022

He listens attentively and addresses all the issues I may have.

JANUARY 26 2022

Dr. Tsarwhas is compassionate, professional and is supportive in my journey to health. He is a good listener and asks open ended questions and always gives me the time I need during our appointments. He ensures I understand my current position and risks and suggests paths for improving my health, both physical and mental.
