**Dr Goldstein was phenomenal. My daughter is excited (yes, excited!) about her visit today. She feels she learned so much and has a clearer understanding of what she has dealt with. I believe her entire outlook has been improved from our visit today though the diagnosis and treatment plan was largely just confirmed. As a parent, I appreciated that my daughter was treated so well. And it must be shared that the doctor who spent so much time with us (fellowship almost completed) was also fantastic. (Note: Just before hitting "submit" I showed my response to my daughter who insisted I write more because, she said of Dr. Goldstein, "everybody needs to see her.?)**
