NOVEMBER 13 2020

**Dr. Sutter has a very great bedside manner. He wasn't in a rush to get out of the room and he answered all my questions and was very thorough. Doctors nowadays are not all like that but he took the time to explain everything to me to make me feel that everything is on track and I don't have any worries. Knowing that I didn't have anything to worry about made me feel 1000% better today. Thank you to Dr. Sutter and his team, very nice people.**

NOVEMBER 13 2020

**Well I had a situation where I needed a second opinion from surgery that I had at a different practice that was done on August 3. They were able and less than four hours to have the other doctors office fax in my operating report and Dr. Sutter was wonderful and very thorough I wanted to make sure that if I moved out of state my knee was on track to healing and he assured me that it was and he also told me the timeline of certain things that is going to take long possibly to recover. Very happy going there today.**

**I will know better once I see the results of my treatment today, but like I said earlier, I was kind of skeptical about Dr Sutter because he is so young, but after being treated by him, he answered every question I had and made me feel like I have been coming to him for years. The nurses, Brittany and Beth were outstanding along with the young lady that checked me in (unfortunately I didn't get her name.....sorry) Hopefully everything works out and I look forward to being treated by them again (if need be) I would ( and already have) recommended Dr Sutter and his staff to other people. Just want to get back on this old messed up knee and play with my grandchildren! ???? Thanks again!**
