APRIL 13 2021

Dr. Engman is a good doctor but, last week, I waited for an hour and 15 minutes and still wasn't seen by her. I intentionally set my appointment to see her and NOT a resident, then one of the residents came in and saw me and I had to leave before I could see Dr. Engman. I had no idea it would take that long to be seen. I could have selected a later time when I had more time to spare and seen a resident, but I chose that time to be seen by the doctor. It just felt disrespectful.
