MAY 21 2021

She has a take-charge attitude that instills confidence immediately, literally in the first 2 seconds. That's rare in a dr.!! I didn't get that from the 2nd opinion I met before her (it was really more a practice run as much as it was a 2nd opinion). She was fast and efficient but I never felt rushed or that she didn't care. She didn't mess around--do surgery right away. Get the cancer out.
