JANUARY 17 2022

She had the time to listen to me, about my life. Great Doctor.

JANUARY 10 2022

Dr. Seig and her associate were professional and nice. Dr. Seig took time to walk me through the tests involved and to give an overview of what those tests would inform. She had carefully gone through my self completed pre-visit questionnaires. I was impressed with her background knowledge on Indian languages as she rightly pointed that my mother tongue, Kannada, is one of the old Dravidian languages!

We only performed one portion of the diagnostic testing so I feel unable to provide a full recommendation. As me again once all of the testing is complete

DECEMBER 15 2020

I feel comfortable sharing parts of me that I can't share with others. It gives me some relief, although I hope there is a time when I don't need Dr. Seig. The experience is worth it.
