OCTOBER 8 2020

**Dr. Janss wasn't professional. I asked her to look at my skin and she didn't even get up from her seat to look at my pores, she just said she didn't see any issue at all. I tried explaining to her my concern with my skin and she would talk down to me as if I didn't know what I was saying. She never asked what products I currently use on my skin. She never provided information for a follow up appointment regarding my wart, and she just walked out of the room after she treated us. She didn't explain what to do after the visit and didn't even give directions on how to leave the office. She wasn't wearing any gloves nor did she use hand sanitizer when she walked in**
