APRIL 16 2022

My recent visit she brought up hospice care. I was not expecting this and would have liked a prior warning that she would like to discuss this. I was there alone. I would have wanted my husband there with me if I had known this discussion was on the table. She has been great with managing my meds and responsive to my health concerns

APRIL 14 2022

Prepared

APRIL 1 2022

Dr. Hopkins is an outstanding listener. She reacted professional to my multiple issues. But more, she asked excellent questions in an attempt to fully understand. Instead of talking TO ME, as many doctors do, she asked: "What do you think is the source of the problems?" Whoa, there you go. She was seeking to learn my self-intuition, then blend it with hers, along with medical evaluation. She followed up quickly to my later Mychart questions. Ten stars.
