JUNE 10 2021

Dr Beall delivered my baby as a fill in, Dr Cekova was not available that day, 9 months ago. Dr Beall helped me bring into this world the 2nd love of my life, my daughter Katherine. Without knowing me, my history, pregnancy history or me personally, Dr Beall rocked! The reason for my visit was a recent scary ER visit, and Dr Beall was gentle, kind, and reassuring during this difficult time. Dr Beall is an outstanding physician.

MARCH 5 2021

Before my appointment even began I was sitting in the room after the nurse left and outside my door I heard the nurse and doctor talk about me in a negative gossip-like manner. Then Dr. Beall came in the room and said hi but did not look at me or talk to me for the first few minutes and it was so uncomfortably quiet and awkward I didnt feel at ease. Then I tried to break the silence and start telling her about the issue that I came in to talk to her about. The whole time she kept looking at her computer, only saying mmmm to the things or shaking her head when I was trying to explain to her my symptoms. The only time she would say something to me is when she would cut me off and say sarcastic comments which was downplaying & making fun of my symptoms. When I would ask her for a supplement and dietician recommendation, she would just give me a brochure and not explain or talk to me about it. She didnt even talk to me about the issue I came in with and didnt give me her insight on what she thought the problem might be. Out of all the things that happened, the most disrespectful thing she did was make fun of why I dont wear tampons. She even laughed & made a joke of the reasons why I dont choose to wear them. Shes a gynecologist so Im very disgusted, frustrated, & angry as why she would make me feel so uncomfortable. I left the office feeling very let down, discouraged, & upset by having no answers to the issue Ive been dealing with for 2 years. Due to this issue my mom, sister, & myself are seeing another gynecologist at a different office & will not be going to the Woman To Woman office again after this experience. My mom has been going to that office for 18 years and was appalled at the way I was treated, again which is why we will not be going back to that establishment.

FEBRUARY 26 2021

Well since this comment can be posted I will not go into too much detail. Dr. Beall made a comment to me that I did not appreciate, especially since she does not know my family life and the hardship me and my kids had to go thru.

FEBRUARY 25 2021

Best doctor I have ever had. I never take care of myself. She has me taking care of my own health. I have had some pretty terrible doctor experiences. She has cured my white coat anxiety. Her words she wanted to help me and make me feel better.
