JANUARY 27 2022

I like the fact she is a straight shooter.

JANUARY 25 2022

She was professional, kind, thorough, respectful, informative, experienced and answered all of my questions in a cheerful manner.

JANUARY 25 2022

I felt that I was rushed through the appointment. It was as if she had better things to do and/or patients to see. She knew the concern that I wanted to talk about and she suggested surgery. She responded (paraphrased) "I'm a surgeon I'm known for my surgery." and I told her that I prefer not to go down that route, that I knew of a another surgical procedure that was less invasive and at this point she made no effort to ask me what the surgery was. I was not questioning her surgery abilities. Also, I thought she got a bit snarky with me when she told me that she would set up a follow-up appointment via telehealth within "X" amount weeks to talk about a test that needed to be done that was discussed. I told her that I needed "X" more time for said appointment. She responded (paraphrased) "Well, I don't know how busy you are." I felt if has asked me first what my time frame was this discussion would not have happened. Overall, I was not impressed.

I've gone to her for a long time. Since Women to Women became a NWM site, the "personal care" feeling has ended. It's all about the numbers of patients, the \$ and how quickly can a patient be seen.
