FEBRUARY 24 2021

**He is a good Dr, however I was very unhappy with office staff. I was under the impression he ordered blood work today. I went to the lab at the hospital and was told that the only order they had was from January. The lab called the office twice and I tried once over a half hour period and no one could look at the chart or get an answer from the Dr. I did not want to wait any longer because people were coming for Covid test, I do not plan to get blood drawn until the matter is answered.**
