OCTOBER 30 2020

Amazing service from entire team

OCTOBER 30 2020

Doctor seems extremely knowledgeable although a little impatient. I was hoping to get a little more information from my visit, but perhaps it is premature until further tests are done. I felt he thought my condition maybe was not that significant which is okay if he did. He perhaps could have just told me. I would likely have left feeling better versus uncertain and not worry if that were the case. My experience was positive for the most part, however.

Professional team willing to discuss current and future actions. Believes in data to make informed decisions.

OCTOBER 13 2020

He may be a competent doctor but it is a shame that the office personnel do not follow through or call back. The last person I spoke with was very nice and said she would send an urgent call to the nurse. No one has contacted me yet.

OCTOBER 13 2020

The appointment was postponed. I called several times and was assured that it would still take place. I called hours later and was told that a nurse would call and talk to me, and still no one has talked to me. The appointment did not take place. The service keeps getting worse every time I go there. I did NOT hear from the doctor. I would never recommend the Grayslake facility to anyone.
