Excellent care

DECEMBER 1 2023

She was friendly and informative, both about the procedure and about my concerns relative to the scoring and its meaning and what steps might follow from interpretations about the results.

Dr. Wingo gets all up in your business to better understand what is going on with you & how best she can serve your needs as her patient. She saw me, had me do those brain functioning tests & then had me come back later THE SAME DAY to review the results with me. I asked to eat my lunch in our meeting & she was okay with it. My mom died of cancer among other things the same day last year & I was thinking about her. I only had three hours of sleep as well. I told Dr. Wingo this & I think she understood. Human beings serving other human beings with a very, very high level of professionalism, care & compassion. Both Dr. Wingo & Dr. [] do this!!!

NOVEMBER 16 2023

She is very knowledgeable and analytical.
