NOVEMBER 14 2020

I went to Dr. Senall for a second opinion and the appointment I had with him is what I was expecting when meet with my own doctor which i did not get. Dr. Senall asked questions and listened to my concerns. We reviewed my x-ray and MRI images together and he was explaining to me what he saw. He examined my ankle and made me feel confident about the decision.

NOVEMBER 9 2020

NOVEMBER 9 2020

Very friendly, kind staff who put your worries on hold.

NOVEMBER 8 2020

I appreciate the fact he views surgery as a last resort rather than being the immediate course of action

NOVEMBER 8 2020

Happy with the medical staff and thorough Nature of the appointment. They took time to access MRI outside of NM network rather than my having to reschedule my appointment until I could get a copy of the scan

NOVEMBER 6 2020

[See Question #1] for the above reason. This could have been taken care of at the initial visit. I am also put off that I can not get the Covid-19 test at any location as which I can get the Pre-Op Physical done. It takes valuable time to have this happen.

NOVEMBER 6 2020

I found Jeffrey Senall competent, I am having him do some revision surgery in my left forefoot. We have some teething issues to still work through regarding densepack platelets and desmopressin administered for the surgery as well as pain medications post surgery as I am myeloproliferative and

have AML/Runx1-FPD. And will require specific medications and no NSAIDS. So I have requested and hope I am approved for these medications and am awaiting this discussion with his #1 for this surgery which is why a 10 was not give.

NOVEMBER 4 2020

The doctor was great. Listened. Knew exactly what to recommend to help me.

NOVEMBER 4 2020

Fast appointment. Friendly staff and doctors. Perfect 10! No waiting at all.

Dr. Senall performed surgery on my right foot 3 yrs. ago, and I was very happy with the results. My appointment today was to address similar issues on my left foot, and I'm very confident in his judgement and knowledge as well as his patient interaction.

Dr. Senall, is a real gem in my book. I have been to a whole lot of doctors since being struck by a train over 20 years ago, after meeting the Dr. today I. Must say he rcplss AS once things to me snd

understood where I was coming from we decided together what's the best Approach before surgery, He truly cares what he does and sincerely is driven by the thankfulness of his patients. I am one of them. Thank You. Dr. Senall.

SEPTEMBER 30 2020

Hopefully it's not a blood clot.

Very compassionate and willing to reassure me, and the surgery itself went off without a hitch. The break I have is notorious for problems and I have not had a single complication. I just can't think of a negative thing to say about him or his staff and assistants.
