all together positive and upbeat

SEPTEMBER 24 2019

Doctor Templar is wonderful! I've never had a bad experience with her and this appointment she spent a lot of time with me and talked about a lot of issues, besides my epilepsy. She also hooked me up with a social worker who is helping me take care of some other issues I'm dealing with.

AUGUST 29 2019

***Dr. Templer is the most caring doctor. She is an excellent clinician and amazing communicator. I wish all doctors were just like her!**

APRIL 26 2019

everything was great

FEBRUARY 21 2019

Dr Templar is amazing. I travel from the suburbs for my appointments and the travel time and walk time with train and walk to hospital takes about 3.5 hours without the appointment. She is the only one I completely trust with my care and respect her enough to do differently compared to what I want to do.

JANUARY 29 2019

I would not hesitate to recommend *Dr. Templer to others.

JANUARY 14 2019

Dr Templer is an exceptional doctor. Not only is she very bright, she is also very caring. She takes the practice of collaborative medicine very seriously. I always feel that we are making decisions regarding my care together. Dr Templer is absolutely wonderful and one of the best doctors I have ever encountered and I am so thankful to have her as my neurologist.

OCTOBER 20 2018

***Dr. Templer takes extra time to answer my questions.**

SEPTEMBER 20 2018

***Dr. Templer is an exceptional practitioner. She spent extra time with my wife to make sure she and we fully understand diagnosis & therapy. Follow-up also excellent.**

AUGUST 13 2018

***Dr. Templer is one of the best & most conscientious physicians I have ever been & her care of her patients is second only to her medial knowledge. I would & have recommended her.**

She was excellent, took her time and very knowledgeable.

MARCH 28 2018
