was at the center & nervous. While waiting to have what turned out to fortunately be a minor procedure, I was able to watch how each person was greeted in the waiting room with kindness & respect as they were brought to see their physician for their treatments.

NOVEMBER 7 2020

Dr. Abad is the epitome of what any patient should want in a physician"surgeon, but especially because when dealing with cancer. Dr. Abad took the time that was necessary before the surgery, and now during the recovery, to ensure all my questions were answered completely and in a manner that I could understand. My family and I definitely feel so very blessed that I was fortunate to be in Dr. Abad's care. Fifteen years ago, when living in Ohio, I had prostate cancer, and I chose to travel from the suburbs of Dayton to the Cleveland Clinic for my surgery. When I was diagnosed this past June with esophageal cancer and before meeting Dr. Abad, my family discussed if a second opinion at the Cleveland Clinic was necessary. However, after meeting Dr. Abad, I made the wise and proper decision to remain in his care. My family and I are so grateful to Dr. Abad, and we will likely never be able to adequately express our deepest appreciation for his giftedness as a physician and surgeon. In short, Dr. Abad is amazing.

NOVEMBER 3 2020

Nothing is ever too much to asks Dr Abad at the Cancer Center in front of Delnor Hospital and his medical assistant Maryanne were so personable. Dr Abad explained all the aspects of my melanoma and how he was going to excise it. The depth ad width. What type it was the danger of it and his treatment I. I also had a blood draw with Linda who was fantastic. The tech who took me into the room to wait and get my information was fabulous we laughed had good conversation and she was interested in me. The lady at the entrance was so helpful and nice. The receptionist who checked me in was just as nice. I also had an X-ray and an EKG at Delnor both of the techs were friendly and were as well interested in me. I love north Western and Delnor. I was at both locations today 11/3/20.
