DECEMBER 10 2021

I was made to feel like an adult woman, which I am. I almost did not make an appointment, because over a year ago, a doctor, at another medical facility all but said it was my imagination etc.

DECEMBER 7 2021

I felt the doctor was very rushed. I had to fill out many long questionnaires. The questions asked were not addressed in my appointment (which was a video appointment) In my in person appointment she was again rushed. The fellow found some issues but those issues were not addressed. Because had just had a procedure I did not have the presence of mind to address the findings of the fellow. I would say the care was not well coordinated between providers I saw
