JANUARY 29 2022

Dr Gates is excellent as is her staff. They work amazingly together as a team. She is candid but kind. Goes the extra mile. Her assistant is the same. He also makes sure you are informed and are reassured. They both want to make sure you leave without any unanswered questions. You need to clone both of them ðŹŠ

NOVEMBER 8 2021

Dr. Gates is everything I look for in a physician. She isn't satisfied with just managing my symptoms; she actively looks for ways to help me feel better and live my best life. She is an exceptional listener who brings her whole self to her work and it shows. On top of it all, she has a great sense of humor and laughs at my jokes. Even though coming to NMH is not convenient for me given my distance from the hospital, she is worth the drive and worth the wait, every time.

AUGUST 25 2021

All I can say is she meets every criteria I expect in A doctor. Not only does she know what's going on but thinks about how to explain it in a way you feel comfortable and safe before you leave. No limits of time or pushing the boundaries of having the appointment shortened due to heavy volumes of patients. Her kindness and her ability to listen and to communicate back was incredible! I could go on and on just from that meeting but I think this has enough.

Dr Gates listens to her patience and makes them feel heard.
