SEPTEMBER 1 2019

loved both the resident and the attending

JULY 21 2019

Dr. Lu is a total star - clearly an exceptional physician with an active research component to his work,

but also with very good patient communication skills.

JUNE 16 2019

very professional and concerning

MAY 5 2019

Dr Lu took care to explain my condition, explaining the seriousness, but reassuring me of the positive outcome of my treatment. He carefully explained the importance of ongoing monitoring, with regular follow up appts. Very confidence inspiring demeanor

APRIL 27 2019

Doctor Lu explained everything to us about the examination. Very friendly, very thorough. Included my wife in the conversation.

FEBRUARY 20 2019

Excellent experience.

FEBRUARY 9 2019

Dr. Lu was great!

JANUARY 18 2019

Excellent demeanor, also correctly assessed my desire for more technical information. Engaged on my questions and also listened carefully and made additional appointments and examinations based on my responses. Overall excellent.

NOVEMBER 23 2018

Dr. Lu was excellent

NOVEMBER 10 2018

I left the visit with new strategies to treat skin issues I had had for years.

OCTOBER 13 2018

Dr. Lu listened to my concerns, explained to me his tx and explained to his intern the plan. Both health care professionals were attentive and concerned. I thought it demonstrated the superior teaching skills of Dr. Lu to encourage engagement of his intern. I usually see interns hanging back tentatively while the treating physician explains their actions. Here, both physician and intern were actively engaged. I would submit it makes for a better outcome for the patient and the intern as the intern is actively practicing rather than merely observing, while the patient gets a second set of eyes analyzing the issue. (By the way, this was not a major medical emergency, so maybe the simplicity of the situation lent itself to this result.)

SEPTEMBER 8 2018

Dr. Lu was friendly, smart, direct, and clear in his advice. I liked him instantly.
