FEBRUARY 15 2021

No one likes going to the Gyno. I personally have put it off for almost a year since my last OBGYN was horrid. From visit one Dr. Hering listened and understood my frustrations with my last Dr and also explained things to me thoroughly and in ways I could understand. For almost 4 years I have been in pain and was not being listened to and he was the first to actually give me something tangible from day 1 as a potential cause/solution. And yes I know it will be different for every woman but the fact that he listened to me it wasn't as frustrating as I thought it was going to be he made it as easy as possible for me. For someone who has had a bad run with providers I HIGHLY recommend Dr. Hering for his genuine care and his ability to listen and convey the plan of treatment and reasons why. I am extremely happy with this hospital and every employee I have met thus far.
