Dr Laycock is the best Doctor in the whole world. She always takes her time and does not rush you. She is very friendly and puts you at ease and makes you feel comfortable. Dr Laycock always makes time for me if I have an urgent medical situation even when her day is packed, and she then remains super calm and easy going, and takes her time talking with you to completely understand what is going on, she listens to you and discusses best options and let's you participate in the decision. She is so very sweet, and is a genuinely kind and caring

person. All of Dr. Laycock's staff are amazing also. They all reflect the same kind and caring attitude, and I know I can trust them to communicate my needs to Dr Laycock when I call in and expedite when needed. The entire team is super friendly.
