APRIL 8 2022

I appreciate every person on the medical team for working together to help me, and now I will be able to move forward in life to have hopefully healthy pregnancy, avoiding late term miscarriage and other issues that could have put both myself and baby at risk of trauma. I will be forever grateful to Dr. Milad and look forward to recommending him to women who may be in a similar situation with their reproductive health. Similarly, Dr. Yang's expertise in complex gynecology is what brought all of my reproductive issues to light; she is the one who finally ordered me the MRI that I wish I would have years ago. She has the best listening ear and heard me— she took my pain seriously in a way no other doctor had. She and Dr. Milad led as a wonderful, competent surgical team.

APRIL 7 2022

Completely competent. Listened and took action on my concerns. Help my hand and forearm until anesthesia kicked in which was super soothing. Thank you. Minimum cuts, only did what was necessary and tried to help me out a bit with some of the adhesions. He does a really good mix of conservative (for fertility and to prevent new adhesions) and also caring about pain management (get rid of some adhesions).
